

The Pinnacle of Luxury in Madrid

A historic Spanish villa, once home to the Franco family, now undergoing a meticulous restoration to preserve its grandeur and original façade. A timeless piece of Spanish history, available only to a select few where heritage meets exclusivity, and ownership is a privilege, not just a transaction.

Hermanos Bécquer features one residence per floor, with 2 or 4 bedrooms + a service room, and surfaces ranging from 630m² to 700m².

Foyer

The 6 most exclusive residences in Madrid.

Originally designed in the early 20th century by Joaquín Saldaña and later renovated by the prestigious Estudio Lamela, the building retains its original character, with an elegant curved façade that harmoniously blends into the urban landscape of the Salamanca district.

Entrance to the building

Amenities

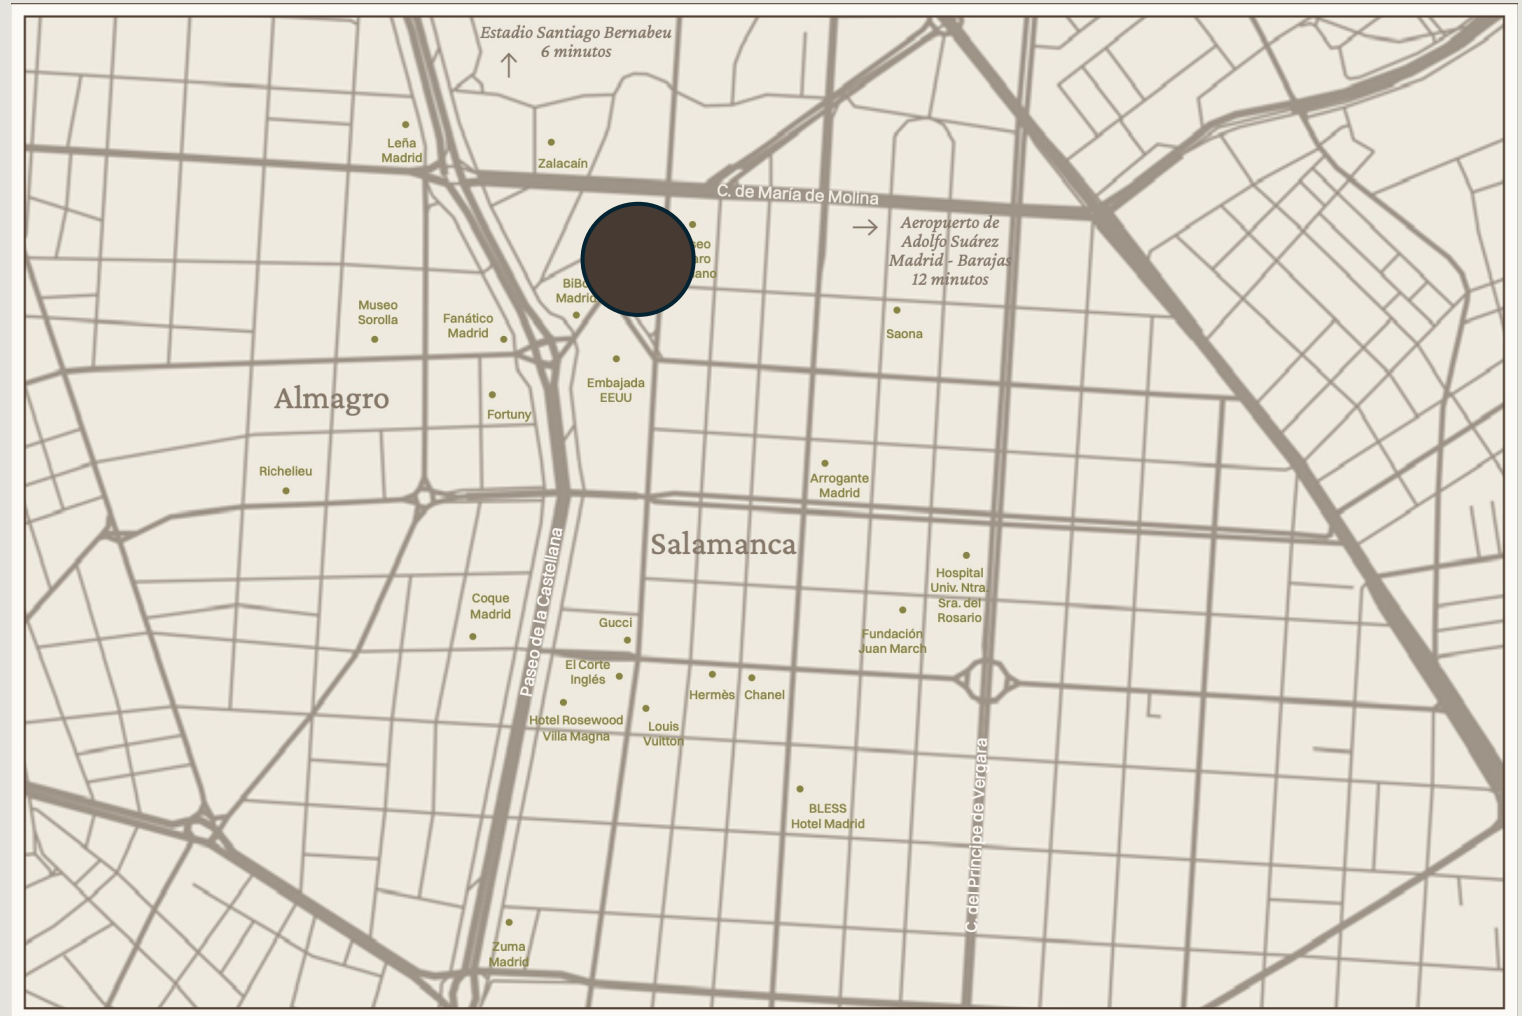

On the spectacular rooftop terrace, overlooking Madrid's famous sky, you can enjoy a stunning sunset from the pool, the jacuzzi, or the magnificent solarium.

Its location, adjacent to the U.S. Embassy and in the heart of the Golden Mile, ensures security, privacy, and proximity to the city's most distinguished establishments.

An exceptional residence in the heart of Madrid, designed for those who seek a home of unparalleled character and exclusivity.
